Profile

I'm a hardworking student in search for a graduation internship for the period of September 2023 till February of 2024. I currently study software engineering at Fontys Hogescholen Tilburg with 1 semester specializing in AI and data science. I'm looking for a challenging internship where I can learn new techniques and technology which connect different people.

Education

HBO BACHELOR / FONTYS UNIVERSITY OF APPLIED SCIENCES

FEBRUARI 2020 - Present

HAVO / MGR. FRENCKEN COLLEGE

SEPTEMBER 2013 – JUNI 2018

Specialisation in Nature and Tech

Experience

Easyflex NL

FEBRUARY 2022 – SEPTEMBER 2022

Internship followed by a full-time summer job.

Skills

- Ability to work independent when necessary.
- Flexible attitude
- Languages: English, Dutch

Technical skills

- Python
- Java
- C#
- Js
- Pandas
- VueJs
- ReactJs
- SQL

External Activities

My free time I use to find new techniques while improving the skills I already have. I can speak both English and Dutch fluently and have no problems conversing in either. Lastly, I have exercised water polo for 13 years where I act as part of the club council as management of tournaments and maintenance of software.
